AMC/NCC – Use only

AMC Report No. : _____

Worldwide Unique No. : _____

A. Patient Information

1. Patient Initials	2. Age at time of Event / Date of Birth	3. Sex	4. Weight
S.K.	45 years	☒ F ☐ M	62 kg

B. Suspected Adverse Reaction

5. Date of reaction started (dd/mm/yy)	6. Date of recovery (dd/mm/yy)
26/06/2026	01/07/2026
7. Describe reaction or problem Diffuse erythematous maculopapular rash over trunk and upper limbs; mild facial edema; generalized pruritus. Onset 72 hrs after starting Amoxicillin-Clavulanate 625 mg BD. Drug discontinued on Day 3. Treated with Cetirizine 10 mg oral + topical corticosteroid cream. Complete resolution in 5 days. No hospitalization required.	

C. Suspected Medication(s)

Sr.	Drug Name (Brand/Generic)	Manufacturer	Batch No.	Exp. Date	Dose	Route	Frequency	Date Started	Date Stopped	Reason for Use
I	Amoxicillin+ Clavulanate / Augmentin 625mg	GSK	AUG-2024-B77	09/2026	625 mg	Oral	BD (Twice daily)	23/06/2026	26/06/2026	Community-acquired RTI
II	—	—	—	—	—	—	—	—	—	—
III	—	—	—	—	—	—	—	—	—	—

Dechallenge / Rechallenge

9. Reaction abated after drug stopped or dose reduced?	10. Reaction reappeared after rechallenge?
☒ Yes ☐ No ☐ Unknown ☐ N/A	☒ Yes ☐ No ☐ Unknown ☐ N/A (not performed — clinically inappropriate)

D. Clinical Details

11. Concomitant medications (including self-medication):	12. Relevant tests/laboratory data with dates:
None reported. (Cetirizine 10 mg & topical corticosteroid excluded — used to treat the reaction)	No lab investigations performed. Clinical diagnosis by treating physician on 26/06/2026.
13. Other relevant history (pre-existing conditions, allergies, pregnancy, smoking, alcohol use, hepatic/renal dysfunction):	14. Seriousness of the reaction:
Known childhood hypersensitivity to Sulfonamides. No prior documented Penicillin allergy. No pregnancy. No hepatic/renal dysfunction. Non-smoker. No alcohol use.	☒ Death ☐ Life-threatening ☐ Hospitalization/Prolonged ☐ Disability ☐ Congenital anomaly ☐ Required intervention to prevent permanent damage (Facial edema — potential angioedema risk monitored) ☐ Other
	15. Outcome:
	☒ Fatal ☐ Continuing ☐ Recovered ☐ Recovering ☐ Unknown ☐ Other

E. Reporter Details (see confidentiality section on last page)

16. Name and Professional Address:	17. Causality Assessment:
Ved Prakash Sheikhpura, Bihar Email: ved7859@gmail.com Occupation: B.Pharm Graduate / Pharmacovigilance Intern	Probable (Naranjo Algorithm Score: +7)
Signature: Ved Prakash	18. Date of this Report:
	29/06/2026
